# Unresolved and escalated complaints

An unresolved complaint is a complaint or enquiry referral that the consumer tells us was not resolved after we referred it to the provider.

Most unresolved complaints proceed to dispute resolution and are called escalated complaints. Some unresolved complaints are not escalated – this can be because the issue is resolved before escalation, the issue that remains unresolved is not a matter we can assist with, or the consumer decides not to proceed with the complaint.

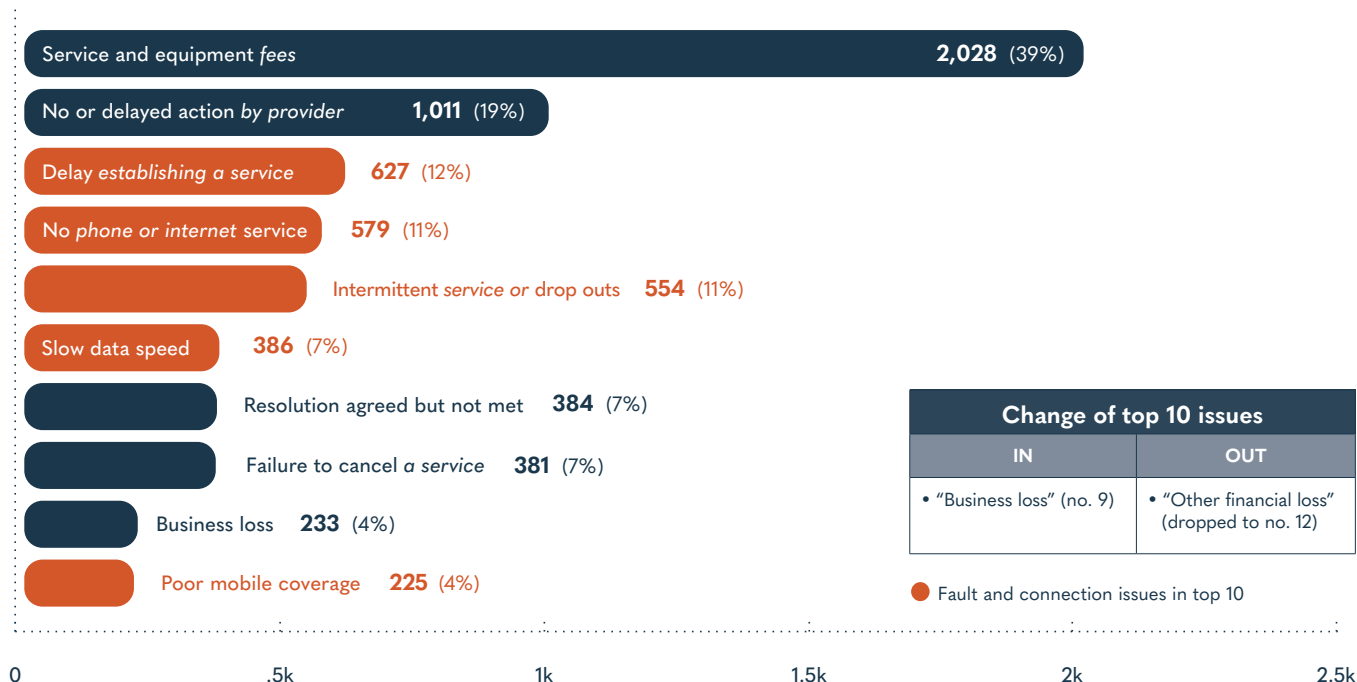

The graph below shows the proportion of complaints and enquiry referrals that were referred to providers and returned to us as unresolved complaints, and the proportion that were escalated.

The proportions of unresolved and escalated complaints increase over time, and so the proportions reported in our Q4 report have increased. This is because consumers who made their complaint in an earlier quarter may not return to us with an unresolved complaint until the next quarter. We expect the proportion of unresolved complaints from Q1 will similarly increase.

# How we do data

---

This section explains the finer points of our data.

## Complaints

Where we talk about complaints, these:

- are expressions of dissatisfaction about a provider when the consumer has contacted the provider and is not satisfied with the outcome. We send complaints to specialist teams at providers for another attempt at resolution. Most complaints are resolved in this process
- may include more than one issue
- do not include enquiries, enquiry referrals or withdrawn complaints.

## Contacts

Where we talk about contacts, these:

- include calls, emails and online forms that come through our public portals
- exclude calls and emails to individual staff members and abandoned calls
- exclude identified data anomalies within the financial year
- include all contact up until a complaint is classified as unresolved.

## Data updates

If a complaint or enquiry is withdrawn or cancelled before the end of the financial year, we remove it from reports.

Where we reclassify a complaint, we remove it from reports. For this reason, we adjust volumes of quarterly data before the end of the financial year. If we find other data that requires adjustment, we will also make these adjustments within the financial year. This may also be reflected in the annual report.

**Dispute resolution** is where we work with providers and consumers to resolve escalated complaints.

**Early resolution** is where we take initial contacts from consumers and log them as enquiries or send complaints to providers.

**Enquiries** includes enquiries and enquiry referrals.

**Enquiry referrals** are complaints that have not been raised with the provider before a consumer contacts us. We send these complaints to providers but give providers a longer time to try to resolve these.

**Escalated complaints** are a subset of unresolved complaints that proceed to dispute resolution. Some unresolved complaints are not escalated – this can be because the issue is resolved before escalation, the issue that remains unresolved is not a matter we can assist with, or the consumer decides not to proceed with the complaint.

**Fault and connection complaints** are complaints that include a fault or connection issue. These are only counted once, regardless of the number of issues raised in the complaint. These complaints may have other issues that do not relate to faults or connections. Faults and connections include issues from the connection, no service, and poor service quality issue sub-categories.

**Internet complaints** relate to services delivered over fixed-line or fixed wireless internet connections. These complaints do not include internet services delivered by mobile devices or Voice over Internet Protocol (VoIP) services delivered over the internet.

**Issues** A single complaint can have more than one issue. Where we talk about complaint numbers, we only count complaints once. Where we talk about issues, we count all the issues.

**Issues in complaints** are recorded based on six broad categories that follow the lifecycle of a consumer's relationship with their phone or internet provider. From September 2019 we introduced new keywords to better capture the emerging issues in complaints. For a complete list of issues in complaints see pages 13, 14, 15.

**Landline complaints** includes complaints about voice services delivered over the Public Switched Telephone Network (PSTN) and voice services delivered over the National Broadband Network (VoIP services delivered over fixed-line internet connections are also included).

**Mobile complaints** are complaints relating to a mobile telephone device or service, including complaints about internet accessed through a mobile telephone service.

**Multiple complaints** relate to complaints about more than one service type with the same provider.

**Online** includes all web forms and emails.

**Percentages** within the report have been rounded, so totals may not add to 100%.

**Property complaints** includes complaints about damage to a provider's or landowner's property, or a dispute about use of property by a carrier.

**Small business** includes small businesses, not-for-profits, and charities.

**Top 10 providers** Where we talk about the Top 10 providers, we mean those we received the most complaints about in the quarter. The data does not reflect the number of customers or services in operation. A consumer making a complaint does not necessarily mean a provider or network operator is at fault.

**Unresolved complaints** An unresolved complaint is a complaint or enquiry referral that the consumer tells us was not resolved after we referred it to the provider. Most unresolved complaints proceed to dispute resolution, and are called escalated complaints. Some unresolved complaints are not escalated – this can be because the issue is resolved before escalation, the issue that remains unresolved is not a matter we can assist with, or the consumer decides not to proceed with the complaint.
